

Scientific Seminar

Quantum nanostructures at atomic scale: From vertical hybrid nanowires to planar nanowire networks and 2DEG/2DHG systems

Jordi ARBIOL

ICN2*, CSIC and BIST, Campus UAB, Bellaterra, 08193 Barcelona, Catalonia, Spain

ICREA, Pg. Lluís Companys 23, 08010 Barcelona, Catalonia, Spain

Semiconductor nanowires (*r*)evolution: from vapour liquid solid to guided growth and selected area growth.

H. 16:30

April, 9th 2024

Seminar room, DFA –
Via S. Sofia 64, Catania

Hosted by:

Prof Maria Chiara SPADARO

Prof Salvo MIRABELLA

* Agreement between ICN2 and DFA-UniCT
